Introduction:

Indian Institute of Information Technology Nature Club is established on 6th October 2017. The Institute has a large campus of about 80 acres. The campus and all properties located on it belong to the Sri City. It has a number of buildings meant for academic, administrative and residential accommodation. It has two hostels for boys, two for girls.

Large area of the campus is occupied by natural vegetation constituting herbs, shrubs, trees and climbers. The flora Indian Institute of Information Technology campus is rich and extremely interesting. It provides home for birds, reptiles, amphibians, butterflies, insects, honeybees, etc.

The Indian Institute of Information Technology authorities have established Indian Institute of Information Technology Nature Club for environmental education, conservation and protection of biodiversity on the campus and Sri City. It is the center for nurturing of knowledge, enlisting the co-operation of volunteers and the inflow plough of new ideas and their implementation.

Activities:

1. To sensitize, create awareness, motivate and educate students about environment conservation
2. New Tree plantation, Power point presentations on Ecosystem
3. To conduct Field Trip activities
4. To conduct Exhibitions on Environment
5. Environmental Cleanliness
6. To organize Adventure Activities
7. To organize Snake and Dog Bite Awareness Programme
8. Environment Education Camps
9. Animal Welfare Activities
10. Open Butterfly Garden
11. Bird Call & Video Recording
