INFORMATION SHEET

About the Programme:

M.Tech (AI & ML) is a two-year degree program in Artificial Intelligence & Machine Learning at the Indian Institute of Information Technology, Sri City, Chittoor.

Background:

Artificial Intelligence has emerged with its potential ability to solve complex problems of recent times in fields including manufacturing, healthcare, security, information forensics, visual understanding, efficient transportation, e-governance services to the public, etc. Many countries have made focused national efforts. The Government of India has also initiated a widespread discussion on the role of AI in India. Niti Ayog has suggested the dedicated AI plan to the Govt. of India. Moreover, the top IT companies such as Google, Amazon, IBM, Microsoft, etc. have invested huge funds in AI-based research and development in recent days. Many startups are also emerging nowadays in AI across the globe.

Being an Institute of National Importance in Information Technology, IIIT Sri City is already running the B.Tech program with AI & ML specialization. Thus, M.Tech. program in AI & ML will be a progress in the academic and research activities. The two-year M.Tech aims to bridge the urgent needs of the industry and to produce the high-end AI scientists and engineers for the society. The aim of the M.Tech program is to produce graduates by providing rigorous training in the priority areas of industries and research.
